ICT

Name of
Enrichment Course

Overview of course
(including any age or size of group restrictions)

British Informatics Olympiad

<https://www.olympiad.org.uk/>

The British Informatics Olympiad is an annual competition in computer programming for secondary schools and sixth form colleges. Any student who is under 19, in full time pre-university education and resident in mainland Britain, is eligible to take part and may win prizes including an expenses-paid trip to the prestigious International Olympiad in Informatics.

This is not suitable for novice programmers!

ICT

Name of Enrichment Course	Overview of course <i>(including any age or size of group restrictions)</i>
<p>Drama Club</p> <p>Wednesdays 15:00-16:00 (Drama studio)</p>	<p>An introduction to Drama for Years 7 and 8. Our time will be spent playing drama games, devising mini-scenes and enjoying collaboration, teamwork and creativity. Great for improving confidence.</p> <p>Starts <u>Wednesday 29 September.</u></p>

Debating Society in main school

Name of
Enrichment Course

Overview of course
(including any age or size of group restrictions)

Debating Society

The main school debating society will be meeting after school at 3pm every Thursday. This is a fantastic opportunity for students to develop their critical thinking and debating skills in a friendly supportive environment with Ms Durrant coaching Years 7,8 & 9 in R35 and Mr Gatehouse coaching Years 10 & 11 in R34, both supported by Mr Mallace-Goulbourne and Mr Bailey. These skills are highly useful in terms of interviews, employment and further studies at the next stage. There will be opportunities for students to interact with sixth form students who take part in the highly prestigious annual Debating Matters competition which the school won in 2020.

(including any age or size of group restrictions)

**Maths Inspiration
lectures**

<https://mathsinspiration.com/>

Maths Inspiration is a national programme of interactive maths lecture shows for teenagers. They give 14-17 year olds a chance to experience the UK's most inspiring maths speakers presenting mathematics live in the context of exciting, real-world applications.

The Maths department attend live events in theatres or watch the shows online depending on logistics and circumstances at the time.

Mathematics

Name of
Enrichment Course

Overview of course
(including any age or size of group restrictions)

Alan Turing Cryptography Competition

https://www.maths.manchester.ac.uk/cryptography_competition/

The Alan Turing Cryptography Competition is aimed at secondary school children in the UK up to Year 11 (England and Wales), S4 (Scotland), Year 12 (Northern Ireland). You don't need to be a computer whizz or a mathematical genius — you just need to keep your wits about you and be good at solving problems!

The competition is organised by the Department of Mathematics at the University of Manchester.

Teams register and complete the problems on site each week with staff supervision.

Cryptographical techniques are used everywhere in modern everyday life. For example, Whatsapp and many similar programmes use encryption to prevent eavesdropping, many websites use encryption to process credit card payments securely, and banks use it so that people can safely do their internet banking at home

(including any age or size of group restrictions)

Pi Day
Tuesday, 14 March

Pi Day is an annual celebration of the mathematical constant π (pi). Pi Day is observed on March 14 as 3, 1, and 4 are the first three significant figures of π .

In the past in school we have celebrated by holding pi recitation competitions and eating cake.

**Maths Challenge at
various levels
(Junior, Senior
and Intermediate)**

<https://www.ukmt.org.uk/>

The Mathematical Challenges is a highly regarded national competition consisting of multiple-choice Challenges. These challenges are completed by various year groups in the school. It encourages **mathematical reasoning, precision of thought,** and **fluency** in using basic mathematical techniques to solve interesting problems.

The problems on the Senior Mathematical Challenge are **designed to make students think**. Most are **accessible**, yet still challenge those with more experience.

All students will receive a certificate of participation. To recognize the highest performers in the Challenge, we award participants Bronze, Silver and Gold certificates
