

Student Careers Information

Here at the Burgate, you will learn about a wide range of careers and pathways available to you. You will learn how to write a CV and application, be given a mock interview experience, and experience trips, visits, and have talks from experts in industry or from other educational providers to help you make decisions about your future.

In Years 11 and 12, you will be given a Careers Appointment with our Careers Advisor Mr Champney, and you can request one at other times too if you feel you'd like to discuss your future with someone.

Mrs Hosegood is the school Careers Lead, so do speak to her if you have any questions regarding Careers education at the Burgate.
